

# Do You Want To Travel More and Earn More Money?

*Great Travel Promotion!*

7 Trillion dollars is spent in travel. Travel is one of the most internet searched words.

WE ALL WANT MORE OF IT!!!

Today's times are hard for some to travel and for others they're looking for a great deal, discounts and maybe make some extra money.

So I ask if you are one of these people I can literally have you traveling like an insider for less than \$80. TraVerus travel has opened up their wallets and is allowing the best deal ever!

As a Travel Agent you get the perks! Discount on resorts, tax write offs to golf or go to the spa while traveling.

This NOT timeshares or travel packages! TraVerus is a full service travel agency and you are the agent! We have a well respected relationship in the industry as well as among celebrities, charities and more. Currently seeking to purchase our own resorts. And we're INTERNATIONAL!

Earn some commission booking your friends travels. I just got an extra \$400 for booking a couple cruises for friends. The same cruise would have cost me \$200 per person (in my cabin) LESS than what they paid due to me being an agent! I asked Carnival! Get a corporate account and earn more!

You could also become a Mentor or Trainer and help others become great agents and trainers themselves to earn more!

It's all up to you! You the boss, there are no quotas or minimums! Some join for just the discounts on travel, others book travel for commissions and others train & mentor or a combination of all 3. Of course everyone wants TRAVEL DISCOUNTS!!! And one becomes a mentor by being mentored and that's what TraVerus is all about. Teamwork! Our team is led by one of 12 Field Leadership Members and Top Agent with over 16 years business experience. And YES we have verbal access to him...it's not just a trickle communication down kind of thing. We are all about supporting one another!

So if you're thinking I don't have the money...ask yourself if you could spare a \$1.60 a day. Is there something in your day that you buy that you could do without! Like coffee or pop or snack from the gas station.

You tell me. Either way there is NO HARM done by looking at the website. I'm not here to convince. I was to work with people that are motivated or inspired by one thing or another.

Let me know if you have any questions. In fact I want to talk to you before you make a decision. I make it a point to be as personable as I can in the world of the internet these days!

Take care and I wish you well!  
Jamie
