

# Shopping online is a parent's best friend!

*If you have ever been on a shopping trip with your baby you will probably agree that such outings are not without challenges. Online shopping might hold some of the answers...*

By choosing "online" you can shop 24/7 at a time that suits you. There are no trips in the car (read packing baby, pram, etc.) Parking is not a problem. Online shopping can also easily be accommodated around your baby's schedule.

It should therefore perhaps not come as a surprise that the number of websites selling items for use by babies and new mums is growing steadily. At [www.nursingwear.com.au](http://www.nursingwear.com.au) we sell such products. We specialise in contemporary nursing wear (breastfeeding tops and clothes for breastfeeding mums). We also sell a selection of maternity items, baby clothes, including Bonds and NOO and breastfeeding accessories such as Avent breast pumps.

If you are a breastfeeding mum or soon-to-be breastfeeding mum we would like to invite you to visit our website to compare our range, prices and package deals. We offer the widest online selection of breastfeeding clothes in Australia and have great value-for-money package deals, especially on breastfeeding tops.
