

# MarketerSuperstar.Com Prepares For Pre-Launch - Beta Testing Spots to Be Offered

*Innovative Network Marketing Concept to Pre-Launch Business Opportunity; Unique Educational Program for Network Marketers valued at \$4,764 US offered at No Cost for Beta Testers- Only 300 May Qualify*

Laredo, TX/Feb. 04 â€“ MarketerSuperstar.com, looking to make a paradigm shift on how the Network Marketing Society has been developing, is preparing to hit the industry with a new eLearning and Training Program Model. The programâ€™s purpose is to build solid foundations on every Entrepreneur who wants to succeed with their online business and help them develop and prepare with the proper skills, tools, resources and knowledge to minimize their risks and increase the life rate of their online business.

Officially, MarketerSuperstar.com went live this past Friday, February 1st at 12:00 PM CT, to start promoting a unique Pre-Launch Business Opportunity. This new online business is currently on â€“Alpha Phaseâ€™ mode, the earliest stage any development has ever started to promote which is unheard in the industry.

Although it is still too soon to tell what the final Product will finally look or be like, Peter Palatnik, the mind behind the Project, considers this is the best timing to start a personal relationship with future Marketer Superstars. He commented more about this:

â€œWhenever you have the chance to collaborate right from the beginning, with anyone looking to become a successful entrepreneur, and share the goals and vision I have set for this large scale project, you can always provide added benefits for everyone involved early on, including possible new ideas for improvement and the precise needs and feels that you might miss or had never thought about before.â€•

Rumors say this Unique Educational Program will feature 7 levels with very precise and specific how-to information. Each level may contain over 5 modules integrating a balanced mix of theory and practical implementation through guided training sessions. â€œUsing a balanced mix of theory/practice will lead to better understating and speed of implementation, which in my humble opinion, is the best formula for successâ€•. Mr. Palatnik added.

With this project, there is a sense of determination to reach near-perfection and guarantee the best experience possible to every future successful entrepreneur, hence the reason to create a Beta Testing Team. Mr. Palatnik commented more about this:

â€œI really want to make this eLearning and Training Program standout, but not only for its uniqueness. I want it to mean a breakthrough experience to every person investing on this

program. That is why I decided to offer a Pre-Launch Business Opportunity to 300 minds eager to become future successful entrepreneursâ€•

Previous qualification will be needed to win one of the 300 free Beta Testing Spots available. Details on the requirements and profile needed to qualify for this opportunity, and learn at no cost from a Program that is been valued at \$4,764, will be provided once the site goes on Beta mode.

When Peter Palatnik was asked on some of the reasons for making this innovative Program happen he commented: â€œMarketer Superstar will set the laying foundation for a new generation of Network Marketers. Hopefully this will reverse the alarming failing rates experienced by the industry todayâ€•

He also added: â€œIt breaks my heart to read the news and find out every time that 96% of people is failing over and over again in an industry that has infinite possibilities to succeed. Personal improvement and better financial stability are within reach of everyone with a computer and an internet connection. The way must of our industry has mislead good hardworking people to believe they will get rich by doing virtually nothing truly disconcerts me. If we really want to evolve in the information age, it is time to reverse this tendency and build this great industry on solid foundationsâ€•

The Pre-Launch for this Business Opportunity is set to go officially live this coming Thursday, February 7. Also a link to a special Notification service will be provided on the same day at 12:00 PM CT. The purpose of this Notification List will be to keep anyone interested on taking â€œfirst moversâ€™ advantage on this Pre-Launch Business opportunity, updated with time sensitive information.
