

# Jaguar gains momentum with professionals choosing to work at home!

*In the past twelve months since the writer last studied this amazing program, some remarkable stories have emerged of sales practitioners / owners of the system achieving astonishing results.*

Jaguar Marketing System was developed by Alan Turnquist (also founder of Mentors on a Mission) has been quietly going about its business expanding and attracting quality professionals who, for one reason or another, decided the rat-race was no longer for them and opted instead to run a home business –“working from home.

In the past twelve months since the writer last studied this amazing program, some remarkable stories have emerged of sales practitioners / owners of the system achieving astonishing results.

To some degree these results might have been attributable to the injection of key initiatives and training and development of the system championed by Jaguar’s™ leader Alan Turnquist. . Those who studied the program when it first launched will recognise the “Earn \$1,000 to \$3,000 per sale” slogan whilst others are still trying to come to grips with the fact that there is now a “Earn 10K per week program” which is proving to be very fruitful for some of the key players at JMS.

Daily it seems, more people are taking advantage of the Jaguar Marketing System as a means to work at home and still achieve a highly respectable income.

The system was launched on September 1, 2006 by Mentors on a Mission (known as “MOM”), a global training and mentoring company, after careful examination of :

1. The strengths and weaknesses of other online marketing systems such as Coastal Vacations, Emerald Passport, Prosperity Automated System (PAS), 1 Step etc.- which seem appeal to people wishing to work at home.
2. The state-of-the-art lead generation system developed by Inetekk.

Thanks to the thorough planning and development that went on, the Lead Generation System provided by Jaguar Marketing System has delivered premier leads, that is quality leads and has proved to be a real winner –“led and operated by winners!

The Veretekk Lead Generation System is the engine room, it’s™ members pumping out millions of ads and promotional media which ensures a massive supply of leads which, when managed correctly, result in hassle-free phone contacts and smooth business operations thereafter.

Each Jaguar Marketing System business owner’s™ Leads are handled respectfully and

professionally by a skilled team of Closers who achieve excellent conversion rates making the whole process professional and seamless. Not only does this please the business owners but also makes the opportunity more attractive given the "team"™ approach.
