

PQ's New Software PQ FLV Downloader Pro - All-In-One solution for Video Downloading and Converting!

PQ FLV Downloader Pro can help you download videos from all popular video sites and convert these video clips to your iPod, iPhone and PSP!

PQ Computing Corporation is a leading company specialized in software development for PC and pocket-sized mobile devices. They released two software in 2008, one is PQ Talking Photo, the other is PQ FLV Downloader.

PQ FLV Downloader have two versions: standard and Pro, the standard version can only download videos from internet. the Pro version is much more powerful, besides all functions the standard version provided, it can also convert all the video clips you downloaded to ipod, ihpone and PSP.

Here are the key features of PQ FLV Downloader:

Detect any online flash videos played in your browser and gives you a download link to download it.

One-Click to download and watch the video at the same time.

Download 5 to 8 times faster. Besides using multi-threads, we invented RUSH delivery technology, which is uniquely optimized for video. No pause, no wait, no buffering in the middle even if your internet bandwidth is low and you are downloading a full-length movie.

Convert FLV video(Flash video) to iPod, iPhone, PSP using PQ FLV Downloader PRO.

Support any web browsers (e.g. Internet Explorer 6.0, 7.0, Firefox, Opera, Maxthon, etc).

built-in PQ FLV Player for instant video viewing (FREE)
