

# Prosperizer is Evolving!

*MASSIVE plans for the future of Prosperizer are rolling out. The most significant enhancements to member benefits are: the implementation of the VIP club and RIS; the Residual Income System.*

[b][large]Prosperizer[/large][/b] is the brainchild of a team of entrepreneurs from the UK who are all successful in their own right, but who want to improve the embarrassing 95% drop out rate among new Internet marketers. Following launch in January, members are already seeing increased numbers of sign ups and growing streams of income. The great thing about [b]Prosperizer[/b] is the attention to detail, in the systems being developed for newbies, to get their businesses off to a solid start. The [b]Prosperizer[/b] team has recently developed important upgrades to the system, to further increase its value to members.

The most significant enhancement for ALL members, is the [b]Residual Income Systems[/b] squeeze page - with FREE Report. Prospects signing up here receive access to a concise report explaining frequently misunderstood concepts around building a residual income from the start. (Something the author wishes he had understood better in his early days). The member benefit here, is that the prospect is also directed to the member's personal autoresponder so that the member's own list grows. For the prospect, there is a multi-part email course that is relayed to them over a period of a fortnight. The content is basic, clear, concise, and generic, making it highly relevant to any business system.

The second major upgrade to member's benefits is the launch of the [b]Prosperizer VIP club[/b]. This is effectively an advertising coop. Members subscribe to 1 or more shares in the coop each month. The revenue is then used to buy advertising and leads from sources that the founders have used successfully over the years themselves. The first national media advertising appeared in the [b]Daily Express[/b] and the [b]Daily Mirror[/b] this week. The leads generated by the coop are then directed to the individual affiliates squeeze pages according to their share investment. [b]The focus is on helping new marketers to monetize their businesses at an early stage[/b], using the clout and leverage of established marketer's contacts. The signs are already good, with the [b]Prosperizer forum[/b] buzzing!

From the 25th of February, the 7 Day FREE Trial with [b]Prosperizer[/b] was switched off. Now; people who are interested, are required to show a little more commitment to building their financial future with [b]Prosperizer[/b]. There is still a 7 day trial period which costs Â£19.99, which is the initial set up fee. After a week, if the new recruit wants to continue because they find the content valuable - and they will - they start paying their regular monthly fee of Â£39.95. The membership gives affiliates access to some superb training materials in a variety of media. The training is cleverly differentiated for the member so that materials can be accessed at a comfortable level. It is under the [b]member's control[/b] when they move themselves up to the next level.

Other improvements include the redesign of the squeeze pages by [b]graphics and copywriting maestro Simon Tofield[/b] and the closure of the [b]Prosperizer Forum[/b] to non

members. Why do this you might ask? Because we feel it devalues everything that we are trying to achieve with [b]Prosperizer[/b]! And that is to create an [b]Exclusive Wealth Building Club![/b] We are taking the hard and fast approach. If you're not in you're out! However, the investment required for this scheme is pretty low for starting a business with such life changing potential!

[b]Prosperizer[/b] is also intimately linked to and provides a springboard, for some of the [b]rising stars of the online marketing world: UVME, eLottery and GDI[/b]. Membership includes squeeze pages for these opportunities and the developers are determined to give new entrepreneurs the tools and the skills to develop a stable financial base within [b]Prosperizer[/b] and then branch out into the other superb opportunities or build any other business of their choosing. The extra pages are:

[large]1. uVme[/large] squeeze page that's exclusive to each [b]Prosperizer[/b] Membership. This will help members build their uVme online games business if they so choose.

[large]2. E-Lottery[/large] DVD site - this is a funded proposal where members keep the Â£4.95 that is charged for the excellent quality DVD, promoting this well established rock solid business.

[large]3. Residual Income Systems[/large] - with FREE Report as described above.

These three squeeze pages alone would cost people in excess of Â£1500 if you were to hire web or graphic designers of the calibre of [b]John McNiven[/b] and [b]Simon Tofield[/b]. In fact, it would cost you nearly the price of your membership just to host these fantastic, high quality sites.... And finally not forgetting to mention the member's existing [b]Prosperizer[/b] squeeze page. And don't forget there is a [b]re-brandable Freedomizer[/b] magazine and The [b]Prosperizer[/b] Report! There are more training materials in videos and pdf's real time marketing of E-lottery rollover mini-sites. And much, much more....as the development team steadily ramp up the available resources.

Believe us when we tell you.....people will be kicking themselves that they never had the foresight to take the 7 Day Free Trial while they had the chance. That's great news for the members.

Are [b>YOU[/b] ready to [b>Power Up Your Income?[/b]
