

# Jaguar Marketing Owner Promotes Her Business On You Tube While Playing The Piano

*Michelle Tukachinsky, CEO of MT Marketing and a Jaguar Marketing Systems owner is getting attention on You Tube. She is playing the piano first.. before promoting here internet marketing business.*

Michelle Tukachinsky loves to play Gershwin. And... she absolutely loves working her internet marketing online business. So what better way then to promote her online business than to play a little Gershwin on the piano. This is what she has done over the past week while trying to promote her Jaguar Marketing System. I am her sales manager. At first I thought she was crazy when she told me what she had done. Then I realized that she is trying to capture the attention of her viewers.... in a jungle of people that visit You Tube on a regular basis.

Michelle is the successful CEO of MT Marketing and is also a systems franchise owner of Jaguar Marketing Systems as well. I actually work as her sales manager and I really love the fact that she is out there on You Tube Playing the piano.

You Tube is number 3 on Alexa. It is a fantastic media machine. All of us in an internet marketing business or new online business must take advantage of the You Tube phenomenon. In addition, a business owner needs to get creative in his or her online promotion or he or she will truly get lost in the crowd.

I love the piano.. and I love the business of internet marketing. I love the idea of hearing the piano before learning about a business. And I also absolutely love Gershwin!!
