

# 08 Spyder Electra Paintball Gun With Eye

*2008 Spyder Electra Paintball Guns. New for 2008, these guns are taking over the paintball gun market.*

NEW for 2008, the all new Spyder Electra 2008 with eyes. The new Electra is one of the newest Spyder Classic series markers. The gun has all of the features of the past Electra markers plus more! These guns are not yet shipping but will be in stock and ready to go at the end of April. I would recommend getting in line now if you want to get your hands on one of these hot new guns.
