

Is Cruise to Cash a Scam?

I've been marketing online for quite some time now and I can usually tell a good opportunity or company when I see it. When I first heard of Cruise to Cash I immediately dismissed it as another home b

I've been marketing online for quite some time now and I can usually tell a good opportunity or company when I see it. When I first heard of Cruise to Cash I immediately dismissed it as another home business scam. You know the ones, marketing oversold e-books and useless software as a way of trying to validate their "business" by having a product. Well I couldn't have been more wrong about Cruise to Cash and it most likely cost me thousands of dollars. After stumbling across their site for about the fifth time I decided to take a look. What I discovered was a business that was so well engineered that I knew anyone could plug into their system and earn a good income. It didn't take me long to join and I'm glad I did! The following are what I consider the top five reasons Cruise to Cash the top business opportunity on the web today.

First, Cruise to Cash has the top commission structure of any other online business. You can literally make thousands a day by simply sending people on vacation! The pay structure is called the "modified 2-up system" which offers immediate commissions while allowing you to leverage your signups into even more commissions. Each membership you sell to Cruise to Cash, you make \$977 or \$1,477! You will also earn an additional \$488.50 or \$738.50 on each of the 2 Pass-Up sales your personally sponsored members make! And for every new payline you establish, the 2-Up sales will happen through infinity. And, not only that, but you will earn \$10 or \$20 per month from the monthly Admin fees for each and every person you sponsor! All for sending people on vacation!

Second, Cruise to Cash is actually a lot of fun! Everyone loves to go on vacation. In fact, with Cruise to Cash you will have unlimited access to vacation vouchers that you can print for your own use or to use in your marketing efforts. Think about it...you give a vacation voucher to a business prospect so he can actually try the product out for FREE. Guess what? That person is likely to become a customer! These are no cheap vacations either. You will have access to the Cruise to Cash Travel Center with a Worldwide Network of 4 and 5 Star Condominiums and Resorts, Cruises, 5 Star Hotels, Cheap Flights, Car Rentals, Family Vacation Packages, Disney Trips and a "Build Your Own" Vacation function as well as toll free telephone customer service support!

Third, the products are real! Cruise to Cash is not to be confused with other so-called businesses who offer useless e-books and cheap software to validate themselves as a business opportunity and not a glorified money-scheme. Not Cruise to Cash! These are REAL vacations to real destinations for REAL people and you make REAL money sharing the opportunity with others.

Fourth, The Cruise to Cash marketing system comes full of marketing tools so even a newbie can succeed with the business. All you do is use the tools that your business shows

you to use and start making money in your first 24-48 hours!

You will have capture pages.

You will have corporate email marketing being sent to your prospects regularly

You will learn how to get your own domain name.

You will have their marketing website with movie, recorded messages and testimonies, working for you 24/7 while you enjoy your vacations.

Fifth, Cruise to Cash sells itself! Once people take a close look at Cruise to Cash they can immediately see that they also can profit with this company. Some people even sign up just for the savings they get on the vacations!

So, is Cruise to Cash a scam? Absolutely Not! It's one of the most innovative internet marketing companies the Internet has seen.
