

Temporary Restroom Logistics for New York Papal Visit Provided by Mr. John

Special events coordinators for the New York Papal visit called upon Mr. John for logistics and delivery of temporary restroom facilities for thousands of Papal event visitors.

When Pope Benedict XVI scheduled his visit to America the Archdiocese of New York created a Papal Production Committee to plan the logistics of the six stops Pope Benedict would make in New York. When the Papal Production team needed an expert in special events planning and temporary restroom logistics for the thousands of New Yorkers who would attend these events, they called on Mr. John, the region's leading provider of temporary restrooms and related services for large special events.

Mr. John's team of professionals worked with the Papal Production committee to plan for all of the temporary restroom facilities including ADA approved restrooms and standard portable toilets, deluxe restroom trailers as well as water delivery, valet attendants and restroom cleaning services for the Papal visits to Yankees Stadium, the World Trade Tower Site, and the Papal Youth Rally in Yonkers as well as three other stops on the Pope's New York City tour.

Mr. John's logistic teams managed the entire process of planning, setup, service and removal of the temporary restroom units within a very strict schedule and with some placement challenges due to the compact locations. Mr. John has provided temporary restroom facilities for special events in the tri-state area for over 40 years. Mr. John can provide restroom trailers and portable restrooms for community fairs, concerts, fundraisers and all special event activities.

Mr. John is proud of their work delivered to make the Papal visit a success and so was the Papal Production team. According to Patrick Standsfield, Event Coordinator for the Papal Visit "On behalf of all our folks who worked on the Papal Production at Yankee Stadium & other sites we want to thank the whole team at Mr. John for upholding their end perfectly. All of your people were responsive and professional in every respect performing their critical jobs."

Special Event planners, municipal governments and recreation directors are encouraged to visit the Mr. John and Russell Reid websites to view their current portfolio of temporary restroom and waste management solutions for New York, New Jersey and Pennsylvania.
