

# Portable Restroom Rentals for NY Papal Visit Provided by Mr. John

*Portable Restroom Rentals for New York's Papal visit were provided by Mr. John. Thousands of Americans attended events featuring Pope Benedict XVI in New York.*

The first visit of Pope Benedict XVI to America set the Archdiocese of New York into planning and logistics mode for this historic visit. The New York Papal Production Committee had to plan the logistics for six stops that Pope Benedict would make in New York.

When the Papal Production team needed an expert in special events planning to handle the restroom rentals for each event, they called the tri-state leader; Mr. John. For decades, Mr. John, has proven itself to be the region's leading provider of temporary restrooms and related services for large special events.

Mr. John's special events team worked hand in hand with the Papal Production committee to orchestrate all of the temporary restroom facilities including ADA approved restrooms and standard portable toilets and deluxe restroom trailers. Mr. John also provided service for water delivery, valet attendants and restroom cleaning services for the Papal visits to Yankees Stadium, the World Trade Tower Site, and the Papal Youth Rally in Yonkers as well as three other stops on the Pope's New York City tour.

Mr. John's special events logistic teams managed the entire process of planning, setup, service and removal of the temporary restroom units within a very strict schedule and with some placement challenges due to the compact locations. With thousands of special events under their belts, Mr. John has the experience to handle on the spot changes in schedules, placement and service.

Mr. John has provided temporary restroom facilities for special events in the tri-state area for over 40 years. Mr. John can provide restroom trailers and portable restrooms for community fairs, concerts, fundraisers and all special event activities.

Mr. John is proud of their work delivered to make the Papal visit a success and so was the Papal Production team. According to Patrick Standsfield, Event Coordinator for the Papal Visit "On behalf of all our folks who worked on the Papal Production at Yankee Stadium & other sites we want to thank the whole team at Mr. John for upholding their end perfectly. All of your people were responsive and professional in every respect performing their critical jobs."

Special Event planners, municipal governments and recreation directors are encouraged to visit the Mr. John and Russell Reid websites to view their current portfolio of temporary restroom and waste management solutions for New York, New Jersey and Pennsylvania.
