Name: Rachel

Age: 19

I don't know when I first knew I could squirt. It seems like it was just a few years ago though. Me and my boyfriend were fucking like little rabbits when all of a sudden I felt like I had to pee, but what came out was a gushing flood of my cum. It feels amazing!

Name: Adryana

Age: 23

I think what makes me cum the hardest is having a man service my hot little pussy with his tongue. I think about the juices that I am about to coat his face in and it just sends me over the edge. I can't say they don't love it either because they always cum back for more!

Name: Maryanne

Age: 21

I first figured out I was a squirter when I was 19 years young. My fiancée (at the time hehe) was fucking me doggie style with his thick dick and kept putting pressure on this one spot in my pussy. He was afraid he did something wrong to me, but ooh baby he did EVERYTHING right!

Name: Anna Belle

Age: 20

I love to let my partner find out for themselves my little secret. I think maybe the excitement of not telling them what they are in for is what gets me off the most. Then to see the look on their faces, and to see the shock turn into lust, it's just an amazing feeling inside me.

Name: Anna Belle

Age: 20

I am very flirtatious and I think my squirting is something that makes me that way. I used to be very self conscious about it and afraid to let loose, but once I saw how turned on it made my sex partners, I gave up on all my inhibitions. I let my body lead the way now. My motto? If it feels good...DO IT!

Name: Isabel

Age: 22

I am kinda new to all this but I know I want to share my little gift with the horny men out there in internet land. I cum so much that sometimes I ruin perfectly good cameras with my spray. It's very intense for sure, so I always warn people now, if we're filming, you better bring an underwater camera!
