

Crystal Power runs national sales campaign in the UK

Crystal Power Ltd will be looking for new sales people to help there national sales campaign to make Bring Me Sunshine the newest and most successful homes abroad company in the UK.

Crystal Power Ltd have secured yet again a major multi million pound contract to sell and promote Bring Me Sunshine a new way to own a property abroad at very little cost and with no risk whatsoever.

Crystal Power Ltd who are now in there 10th year of business have been successful in Direct sales & Marketing for major national brands such has Virgin and the Post Office helping these companies grow there customer portfolio at astonishing rates. They helped the Post Office gain over 700,000 new customers with Homephone thanks to a robust national sales force who worked within the Post Office network for nearly 2 years.

Managing Director Sean Henderson says "We have worked hard with Bring Me Sunshine to develop a unique product to the market that gives everyone the chance to own a 5 star property abroad for 2 weeks per year for 10 years from as little as £1200 deposit and £5 per week. Then after 10 years you get your initial deposit back plus a percentage of the property values increase which is backed 100% by Lloyds so you have no risk whatsoever"

The whole concept is completely different to Time Share because you do actually own a percentage of the property and you also have an asset, plus Time Share tends to depreciate year by year but Bring Me Sunshine doesn't.

Crystal Power Ltd will be looking for new sales people to help there national sales campaign to make Bring Me Sunshine the newest and most successful homes abroad company in the UK. "We have set a modest target of 1000 properties to be sold in the next 3 years so its vital that we have top class professional sales people join us to achieve our targets.

Anyone who feels they have the commitment to succeed in sales and would like to be part of the success story should contact Crystal Power Ltd via there website on <http://www.crystalpower.co.uk/> and apply online," concludes Sean Henderson.
