

Why Free Online Cash System is different from the rest!

Why I failed mlm and I am exploding in Free Online Cash System

I have tried many different things anywhere from selling skin care, several health and wellness opportunities and even tried a few Travel mlm Opportunities.

I failed in all of them, here are some of the reasons:

- 1) Didn't have the money to advertise or participate in ad co-ops
- 2) Didn't have the time to truly devote the time I needed to really build a successful business.
- 3) I Didn't follow through on things.
- 4) I didn't have the money to buy promotional tools or samples.
- 5) I ran out of money before I had time.
- 6) I didn't have the experience to market, I was stressed out and just didn't know what to do, I used up all of my friends and family resources.

You know what I don't blame anyone but myself.

Now My success with Free Online Cash System in just 6 weeks:

- 1) I have people calling me for more information.
- 2) I have people asking me for help.
- 3) I participate in our team's training calls and share what has been successful for me.
- 4) I enjoy what I do because I am helping people earn Money online.
- 5) I get a good number of prospects filling out my opt in lists, many ask me to call them or email them.
- 6) I am attracting people from all over the United States, Canada and The Rest of the World
- 7) I am earning money from My Alertpay, here is a little video proof

<http://www.youtube.com/watch?v=6gDKJceUJYQ>

What is the difference, I have found something I love to do and people are seeing that. Your attitude changes, your business will take off!

I enjoy the fact I can help people change their lives, yeah you can make \$150 per person and then leverage that into 5 income streams and it costs zero out of dollars to get started.

All I do is direct people to a presentation, the presentation shows everything from A-Z, They answer all the questions and will even get people in the process of getting started, so they are actually closing the deal for me. It is very simple and easy to do, all the prospect needs to do is truly plug into our training and learn how to market effectively.

The reason it is so exciting, like I said it costs nothing zero out of pocket to get started and there is no stress while they learn how to market.

There is a learning curve but this learning curve is a lot smaller and our team teaches them what works and what doesn't work. We take each aspect of marketing and break it down so everyone can be successful trying different things. All they do is plug in, follow the 90 day plan and commit to 1 to 2 hours a day advertising.

I will share with them why you tube marketing, video marketing, blogging, writing a press release and now even calling leads can be so simple.

If you are a burned out internet marketer who can't cut a break or someone who is brand

new wanting to work for home, Free Online Cash System is for you.

Who can do it? Students,Retirees,stay at home mom and dads, people who work 40 hours a week and disabled people,it is for everyone.
