

TraVerus and History making updates with China

TraVerus is bringing the world to China, and China to the world

Richmond, VA May 01, 2008: TraVerus Travel President: David Manning announced that history is being made in the travel industry!!

The China Government selected TraVerus Travel exclusively to represent the nation of China for travel. TraVerus Travel is also the only travel agency featured on the 5CTV (www.5ctv.tv) website, which just launched in the United States in early May 2008. This will be headed up by Billy Campbell, of the Discovery Channel affiliation. More information will be introduced to the public later in the month.

China is presently approving tour packages to China to be booked exclusively through TraVerus. China sees the tremendous potential which TraVerus has continued to demonstrate through its growth and superior customer benefits and is looking to allow you the tourists to share in those same benefits. TraVerus will be bringing China to the world—and the world to China!!

TraVerus Travel is also the only travel agency featured on the www.5ctv.tv website. This website opened on May 01, 2008 and is headed up by Billy Campbell of the Discovery Channel. The website will continue to receive updates and the trained CTA™s of TraVerus Travel will continue to get this information to the public. The TraVerus University will also be updated to allow its agents the proper training.

TraVerus is the only true global travel company to capitalize on the entire travel industry. Not even the larger travel companies have been able to take advantage of the China market in the way that TraVerus has. Many other travel companies choose to restrict themselves to the United States and Canada. TraVerus is one of the true pioneers of the travel industry by opening themselves to the world, which would easily explain why China also chose to open themselves to the world by following the example given by TraVerus Travel. This should give you an idea of how huge TraVerus Travel is becoming. TraVerus is your company for booking travel.

TraVerus Travel Agents can now draw upon an already staggering travel industry which is already a 7 trillion dollar a year industry, which is expected to double by the end of the decade.

TraVerus Travel offers everyone the unique opportunity to own their own online travel business. Not only can you travel the world for literally pennies on the dollar, but now you can introduce others to the same incredible opportunities in the world of travel, which makes TraVerus Travel the best online home based business opportunity available.

Position yourself with TraVerus Travel now! Take advantage of the May Promotion and join TraVerus today for only \$99.95. FOR MORE INFORMATION ON TRAVERUS: CLICK HERE!!
