

# Truck Driver Issues de facto War Against Internet Marketers

*Michael Hall, truck driver and member of tripowerteam SEO team issues de facto internet marketing war against, all internet programs, affiliate sites, and leads selling companies.*

Michael Hall, truck driver and member of tripowerteam SEO team issues de facto internet marketing war against, all internet programs, affiliate sites, and leads selling companies, unless they disclose their success rate.

Michael states, "I am tired of innocent people on the internet getting the raw end of the deal, there is no real entity to oversee the claims made by companies on the internet, so it is time for google to decide. If a internet site claims to know seo, it is time to put up or shut up. If someone makes some kind of outrageous claim on the amount of money they are making time to disclose it publically".

Although he knows that he will not be able to stop lead companies and affiliate programs that do their marketing via email. He believes, his team will be able to put a dent in the top positions of google for all the keyphrases in the home based business industry, which may also lead to an increase in the price of google adwords in this genre, due to more competetion of those keyphrases as people start to realize they need to either get involved with ItsGoodBusiness.net, TriPowerTeam.com or go do something else.

Michael continues, "itsgoodbusiness is the only home based business opportunity I have ever seen where the team is truely interested in the success of everyone, Thomas Prendergast CEO of Veretek started itsgoodbusiness.net in February of 2008 and has been breaking records ever since, and will become prevelant as far as top positions on internet search engines go in the future."

Itsgoodbusiness.net shows internet marketers how to work as a team, relying on ones talents, instead of the tradional "learn as you go method" that typically takes years to achieve and become successful at and to buy customers instead of purchasing leads.

Michael continues, "We don't buy leads, we buy customers, there is no other work at home business in existance, that I know of, that allows you do that. Duplication is a fairy tale told by network marketing programs to get a distributor to keep buying worthless leads in order to find that "golden nugget", give me a break".

The tripower team has successfully taken over first page positions for | Michael Matthews Work at Home Millionaire | The Work at Home Millionaire | Legitimate Work at Home Business | as well as many others in a matter of days which is just the beginning.

Michael Continued "I was and am tired of automated calls trying to sell me some illegal

telephone marketing system, I am tired of getting calls from so called SEO companies selling some search engine optimization deal, from a company that can't even get a top keyword position for the keyphrases their own website was going for, and when I called them on it, they would reply, that is not the way we conduct our business." he laughs " that is kind of getting your teeth worked on by a dentist that has rotten teeth"

As far as the backlash from the internet ummm programs, only time will tell, as Michael believes he knows more about seo in his little finger, than most entire seo companies know. period. and the TriPowerTeam.com SEO Team with the use veretek tools is the most powerful seo company in the world doing their part to contribute to the team to ensure profitability for everyone on the team. ###
