"The Binary Payplan that offers a Phenomenal 50% commission on a every team member in your weakest leg, no balancing, no 1/2 - 2/3, and no cv/bv to deal with. This is an extremely lucrative payplan that allows new people to be in profit very quickly, if they simply have two people in their weakest leg and are qualified their system is paid for, after that it's all profit!

Plus, they can make 50% retail commissions as well and 1/2 of that volume goes into the pay leg for the upline, a win-win. I see newcomers and seasoned marketers alike really making money with Proxycomm." states Rhonda
