

Frustrated Home Based Business Internet Marketing Student Banks \$109,213.00 in One Month

Long-frustrated Internet marketer finally banks \$109,213.00 in one month without dealing with traditional internet marketing headaches, peddling affiliate-marketing Clickbank products or e-books.*

There are thousands of ways to make money with a home based business working from home and there are thousands of more frustrated home based business students and entrepreneurs who have spent thousands of dollars and gotten zero results.

One home based business entrepreneur student name David Schwimmer was one of those frustrated people until he stumbled upon a home based internet marketing system referred to as "Carbon Copy"

The "Carbon Copy" system is one that takes the best internet marketing tools and training and places home based business entrepreneurs into a position where they can start making a part time or full time income.

Schwimmer was able to make \$109,213.00 in one month and enjoys a monthly income in the 6 digit range. He was able to accomplish this by using a cutting edge Internet marketing system that does not require selling e-books, affiliate marketing programs or joining an MLM.

The Carbon Copy System was started by Jay Kubbasek who went from selling mufflers at Midas Mufflers to becoming one of the most successful home based business entrepreneurs in the country.

How Jay Kubassek went from working at Midas Mufflers to making over \$100,000 dollars a month in less than a year.

"My first \$100,000 month came at my 10th month, and I made close to \$500,000 in commissions my first year! I changed my focus to helping others create what I had created, and the rest is history. I'm not telling you my rags to riches story to brag or blow my horn at all! I came from very humble roots and like many people, I struggled for years" said Kubbasek.

"I was not born with a silver spoon in my mouth, and almost everything I know is self-taught. I learned the hard way, on my own, and for the most part without any help or support from my supposed mentors.

I want you to understand why I decided to build my marketing education platform and

eventually CarbonCopyPRO: What you give is what you get! I wanted a \$100,000 a month residual income and the only way I knew how to get that was to help others get the success that THEY want.

Back in 2004, I met this guy with a funky Australian accent named Alan. He was a brilliant marketer and we instantly hit it off, becoming great friends.

We worked on a lot of marketing stuff together and we quickly mastered Google along with all the other search engines.

We both started making a lot of money, but we never forgot about our members. In fact, everything that we figured out, we posted on our web site for everyone to use. Years of trial and error were eliminated for our members and we in turn were able to build a very large group of marketers quickly.

Then one day, one of my members forwarded to me a link to another group of marketers who had stolen all of our training modules, tips, and tricks. They had plagiarized all of our materials, re-branding them as their own. I was furious! How could these guys take credit for all of our experience and hard work?

I made a quick phone call to my partner down-under and within a few hours he had figured out how to password protect our web site.

This put an end to the plagiarism and was the genesis of our marketing education platform. It wasn't called CarbonCopyPRO back then. In fact, we didn't even have a name for it.

We started out with a few dozen members using our stuff and by 2006, we had over 500 members paying us to use our marketing education platform to help eliminate their learning curves.

We had people getting started with little or no marketing experience, who were able to quickly duplicate our techniques. Somewhere along the way I coined the name "Carbon Copy Marketing" Kabbasek said.

The Reason People Loved the Carbon Copy Strategies Is Because They Work And They Made Money

Alan was spending all of his time programming and Jay was still making over 7-figures marketing full time. They continued the tradition of allowing all of our members to copy everything that I created and found to be effective, and they continued to grow.

"I spent my own money split-testing and tweaking the system so that our new members had the best possible training and resources. Everyone got to benefit from our success. This in turn generated more residual income for me, and everyone was winning!

Then came the summer of 2007. A friend of mine by the name of Aaron Parkinson, whom I had met almost four years earlier at a marketing event, called me. He had also chiseled a place for himself in the "who's-who" of the Internet marketing world and this was our time.

We bounced some ideas back and forth and by this point both of us were eager to

collaborate on some new concepts that we had been hatching for some time.

After hundreds of hours of programming and hard work, CarbonCopyPRO was launched three months later.

The only way to describe the success of PRO is "staggering!"

We Had Members Who Had Never Made A Dollar Online All Of A Sudden Making \$20,000, \$30,000, And Even \$50,000 A Month Almost Overnight

The primary company that we were marketing for, like us, had NO IDEA that our new system was going to be so successful. Their sales were up almost 500% within 30-60 days. We were on a vertical growth curve.

Fast forward to now...

• Thousands of Members

• Over 160 Countries

• Over 40 Languages

Pretty much overnight we defined ourselves as the industry leader in the world of online marketing systems.

Our ONLY intention was to be able to look into the eyes of our new members and tell them "eyes, you can do it too!" and then be able to provide them with all of the tools and training they would ever need.

At this point you are at a crossroads. Do you continue down the familiar path that you came from, or do you make a decision to do something unlike anything you have ever done?

This is about YOU changing YOUR financial situation and YOUR life. If you are serious about changing your life and leaving a legacy, we are ready and able to assist you on that journey!"
