

# Do you Dream of a Wealth Building System?

*I am convinced that a true wealth building system is available to all who want it.*

It is a fact that only 3% of the people that market online ever make a dime. That means that 97% of the people who sit at their computer with dreams of a wealth building system to make them rich never make one thin dime. Nothing, Zip, Goose egg, ZERO.

Many people believe that if they join enough programs and spend enough money for this tool or that tool somehow they will stumble upon that wealth building system.

I'd like to share a bit of information with you and you may not be prepared to hear what I have to say but believe me when I tell you all that I am about to reveal is true.

Fact #1 If making money online were easy that 3% figure would be a lot higher.

Fact #2 Most people quit or give up to soon.

Fact #3 Many people start with the lottery mind set of... no selling...no recruiting...just sit back and rake in the cash.

Fact #4 To many people are looking for that easy button. They don't want to learn anything and don't want to put anything into their business, either being time or money.

Fact #5 To many people fall for hype and BS. (refer back to fact #3)

I am convinced that a true wealth building system is available to all who want it. But... you must spend the time to grow your business. You must be willing to "work" for it. Yes, there is one of those nasty 4 letter words. W O R K.

I happen to love this business of internet marketing so to me I would never call this work. I have learned a great deal about "how" to market online. But, I have had to spend the time to "learn" how to do it. Just as anyone must learn how to do their work, from a fry cook to a Dr. and all in between.

This is a business it is NOT a hobby. To many people believe all the hype about making \$10,000 by Friday (and it is only Monday). They get discouraged and quit. How silly, to both of those statements. Refer back to Fact #1.. If this were easy that 3% figure would be much higher.

A wealth building system is nothing more than having a good primary business, a way to

promote it and know how to promote it. And never ever ever....ever Quit!
