Replacement permits may be purchased from the club the original permit was purchased from for \$ 20.. To receive a replacement permit, the original trail permit or portion there of plus the matching trail permit trail receipt must be given back.

Please take note that a replacement permit is written only at the same name as on the original permit.

More on the Trail Passes sold in Quebec

A valid trail permit is mandatory to ride on the FCMQ snowmobile trail network. Three different kinds of permits are available for the public plus a specific permit for snowmobiles used by rental companies (see permit prices section).

Trail permits are available from your local club representatives. You can also buy them at your snowmobile dealer and at many restaurants and lodging places situated near the trail network.

As you must know, most of the revenue from your permit goes directly to your club. So if you buy where you ride, your money improves the trails you ride most often.

The portion remitted to the FCMQ represents \$21.00 per annual trail permit. From this sum \$1.50 is transferred to Motoneige Qu^Ãbec magazine to help defray postage fees, \$4.50 are allocated for a special aid fund for clubs and for a fund dedicated to the promotion and protection of snowmobiling, and 10\$ goes in a fund dedicated to trail grooming. The remaining \$5 dollars are for the financing of current operations of the Federation.

What you need before you leave

- Your FCMQ trail permit (sticker and blue receipt)

- Your vehicle registration
- Your driver's license (for public road crossings)
- Proof of \$500,000 liability insurance coverage
- A proof of age (driver's license is sufficient)
- A rental contract (if the snowmobile is rented)
- A competence certificate (for 16 and 17 year old operators)

The sticker is not sufficient !

You must have the proof of purchase (large blue paper) from your trail permit in your possession at all times and be prepared to display it to a trail warden or peace officer as proof that you are circulating legally on the trails.

Permit placement

The permit is valid only when permanently affixed on the snowmobile. General Rules of the FCMQ (article 11) specify that the permit must be affixed on the left side of the cab.
