

# Review of John Cummuta's Overwhelming Debt to Wealth

*I purchased John Cummuta's "Debt to Wealth" program and this is my review of the information I received.*

After hearing the radio commercial for John Cummuta's overwhelming Debt to Wealth program many times I simply had to know his secret formula. I purchased the information and I listened and I read what John's answer to overwhelming debt was. This is my review of that information.

Since my purchase was made online I had immediate access after I downloaded the Debt to Wealth file.

John knows first hand about overwhelming debt. Millions of people are drowning in debt, John was one of them. Are you drowning in overwhelming debt? The information contained in Debt to Wealth is a result of how John himself was able to dig himself out of seemingly overwhelming debt. Not only did the information that he put together work for him but it worked for several of his family members as well, all with great success. Since then John's Debt to Wealth program has helped millions of people all over the world.

The audio part of the information that I received was recorded at one of John's workshops. This was a workshop where he spoke about how to get out of debt and go onto to pay off all of the debt that you have. One of the things John points out is that it is important to know the difference between debt and bills.

John's entertaining presentation was filled with personal stories and first hand knowledge of his own ability to get out of overwhelming debt.

Everything from how did this happen? What can I do to stop this from continuing? What can I do NOW?

John tells you how he helped himself and has helped millions of others get out of overwhelming debt. He will be the first to tell you that it is not rocket science but that it is a step by step plan for getting out of debt.

During John's presentation he tells about many traps and pitfalls to be on the lookout for. As well as giving solutions.

I am sure many will benefit greatly from this information. Will it help everyone? It will only help those who are willing to listen and those that are willing to take action on the information that is provided.

I have read a few reviews from others about this Debt to Wealth program. I heard that a

follow up phone call is placed from one of the staff people asking you if you would like additional personal coaching. I must have fallen through the cracks because I didn't receive one of these phone calls. I also read in these reviews that the monthly fee for this private coaching was rather expensive. But as I said I never got one of these phone calls so I am only going by what I have read from others.

The information that I got out of the overwhelming Debt to Wealth program was enough so that I would be able to follow the plan. Even if they would have called me I would have listened to the offer but I know how to say "NO." As a matter of fact leaning to say "NO" is one of the things that John teaches. So when I read these reviews from other people about the follow up calls I have to chuckle. They are not following the plan that John has laid out for them.

Not being able to say "NO" is one of the reason that many people are drowning in overwhelming debt.

Myself, I thought the information that was offered in the overwhelming Debt to Wealth program that I downloaded was very beneficial and informative. Perhaps others would need the personal coaching that is offered to stay on track and continue with the step by step but not me. What I received from the download was enough.

I hope this review was helpful to you.
