

APSense, The Social Network for Business Got a Makeover

*Now over 50,000 users strong! Some of the top internet marketers are saying..
"APSense is quickly becoming the Facebook of the internet marketing industry. . ."*

Since the first of the year APSense has been transformed. New services have been added and many more are on the way. APSense always was a great place to network with other business people but now it is even better.

APSense now has it's own traffic exchange, APSense Traffix . This new free service is a traffic exchange system designed to generate massive traffic to your business!

APSense ME, a smaller version of Twitter.

APSense Wiki! allows you to create your own Wiki page for all your businesses, absolutely Free!

Your APSense Business Center still is one of the best ways to advertise what you do all in one place. This is a great feature. This is perfect for the new person to put all that they do in one place. Your APSense business Center can act as a "Who is Page" Your able to put your profile on your page. You can set your center up to feature what it is that you do. There is also a spot to be able to add others services that you offer. This same page also has a place to accept testimonials. Your APSense Business Center has it's own URL that you are to advertise. This Business Center is one of the best feature that APSense has to offer and of course it is free. If your a newbie or a seasoned pro setting up your own APSense Business Center really is one of the best things you can do for your business.

Not only is APSense free to join but the Google spiders jsut loves APSense. You will find your posts and your business center on the pages of Google, and we all know what a good thing that is.

APSense always way a great place to network with other business people but now it is even better.

I can't wait to see what they will be introducing next.
